### EDUCATION

**B.S. in Computer Science**  
UNIVERSITY OF HAVANA, CUBA

**A.A.S. in Computer Science**  
POLYTECHNIC OSVALDO HERRERA, CUBA

### EXPERIENCE

#### IT Specialist

SAN JOSE CLINIC, HOUSTON - 2016

Currently working in conjunction with the IT Manager to support, maintain, and develop the technology hardware and software infrastructure of the clinic. Configured a spanning tree protocol to prevent bridge loops on the network. Found a handy way to deploy third-party applications using WSUS Package Publisher, which permitted a faster and easier installation and update of software on network computers. Awarded Good Samaritan (Employee of the Month) in November, 2016.

#### Network Administrator

HISTORIAN'S OFFICE OF HAVANA, CUBA - 2010

Performed a wide range of network administration duties including installations, debugging, maintenance, upgrades, and general support to the network infrastructure. Played a crucial role on the network infrastructure upgrade undertaken in the building by helping to map devices on the network and their physical connectivity. Installed open-source and Linux-based software like Squid, Pegasus Mail, Jabber, etc., which saved increasing software license costs to the organization.

#### Intranet Webmaster

MILITARY ACADEMY, CUBA - 2006

Developed, managed and performed the regular maintenance of the Academy website. Improved the Academy intranet website format and design. Added dynamic behavior to the web page and user interactivity. Implemented streaming services through the website which enable the live broadcast of meetings and events.
